

Agri-Links Happenings...

Seminar #2 - “Show Me The Monney”

The event was attended by 30 people, which was held at Sorrento's in Mt Gambier, in which the catering for the event was professional and exquisite.

The 5 speakers were

Christine Robertson (Hockey SA General manager)

Jan Bittner (Limestone Coast Volunteers Services)

Angela Solly (Be Active Field Officer)

Cathy Ashby (SENRM Community Projects Coordinator)

Roger Barbolka (Regional Development Australia Limestone Coast)

Each speaker in their chosen field explained strategies in which you can obtain the relevant information and the right people to receive the best knowledge to gain government grants. Time frames and how to set up structures to best suit your needs were explained clearly and relevant handouts were available at the conclusion of the night. Question time from each speaker were answered thoroughly and the attendees did walk away with a much clearer outlook on what's available in the fields of interest to them.

The speakers at times overlapped each other's information but served to reinforce critical points which indeed needed to be known. The attendance was made up of sporting groups, community groups and agricultural people.

All in all the night was a success and we received positive feedback about understanding what money is available through government grants and how to approach strategies to obtain funding which some never knew existed.

We would like to thank the speakers for sharing such relevant information to the public and offering their services in the future.
